Subject: Microsoft Settlement

Dear Sirs I encourage you to complete and settle the Microsoft case as soon as possible in a manner that is the least intrusive of Microsoft. It is my opinion that this entire case is based not upon what is best for consumers as we enjoy the greatest technological advantage in the world here in the USA largely due to the contributions from Microsoft but based upon the desire of others as Larry Ellison and Scott McNealey (Oracle & Sun Corporations) to themselves be # 1 in place of Microsoft. Both have openly and repeatedly said as much on many venues. It is time to close this case and move on. Best Regards
Danny Chadwell
